Phlox subulata `Emerald Cushion Blue` / Emerald Cushion Creeping Phlox
Phlox subulata `Drummons Pink` / Drummons Pink Creeping Phlox
Rudbeckia fulgida `Goldsturm` / Goldsturm Black-eyed Susan
Solidago rugosa `Fireworks` / Wrinkleleaf Goldenrod

A man wearing a light blue polo shirt, khaki pants, and a tan hat stands in a vast field of prairie flowers. The field is filled with tall green grasses and numerous yellow and pink coneflowers. The background shows a clear blue sky with a few wispy clouds. The man is looking towards the horizon, and the overall scene is peaceful and natural.

PRAIRIE GARDEN COLLECTION

A prairie garden is a good alternative to a lawn. The plants will accept as much sun as you can give them. The grasses are self-replicating and can be grown more easily from seed than most perennials which means installation and maintenance costs are much less.
