Q20 Please share your story. How have you, your friends or family been adversely affected by tobacco/vape usage? (Please specify without providing any personal identifying information.)

Answered: 15 Skipped: 7

#	RESPONSES	DATE
1	Savage targets me. He should be investigated.	3/24/2021 10:27 AM
2	Seeing a good friend and teammate essentially give up on college opportunities to party crushed me. Seeing the same person pick up vaping again is equally crushing and causes a sense of distrust both in athletics and life in general	3/23/2021 4:28 PM
3	My dad has been smoking for 30+ years. He was diagnosed with Emphysema, 5 years ago. Even with the prices being increased, he still goes through roughly 2 packs a day. I don't want to see my friends to get the same issues, so we really need to be harsher with regulations/bans on tobacco.	3/22/2021 9:18 PM
4	It has helped to build an unhealthy environment both physically and mentally for many people I know. I have asthma and those using vapes around me (concealed and not) has caused me pain second hand in the past. Since vapes and tobacco use became especially popular in my grade many who used these products began to falter in their mental health, relationships, and academics, becoming majorly disengaged and addicted. This has been harmful for me to try to stay afloat in high school when nearly everyone around me, my influences, are encouraging this practice in and outside of school.	3/19/2021 9:48 PM
5	Everyone vapes it feels like. The thing kids font realize is its hard to get off the addiction. Im a strong advisor that rather then banning vapes and vape flavors Kids should deal with it on their own.	3/19/2021 7:56 PM
6	All of my friends started vaping freshman year and are addicted	3/19/2021 7:00 PM
7	I personally have never used tobacco or vaping products, however, have had friends that have. In addition to witnessing this use in classrooms, bathrooms, etc. I have also witnessed the negative health, school, and relationship-related effects. For example, I have seen how tobacco product use has affected my teammates' ability to run and lead a healthy life.	3/19/2021 5:07 PM
8	Not at all	3/18/2021 12:58 PM
9	No one has had issues I am more likely to die in a car accident then die or struggle from vaping.	3/18/2021 12:40 PM
10	It's not good for them but they donut anyways	3/18/2021 12:19 PM
11	My grandpa died from lung cancer due to tobacco use. I have asthma and cannot go to homes of friends and family who smoke/vape. My friend group has changed because I don't want to be friends with people who smoke/vape and when we went to middle school some of my old friends started smoking and vaping.	3/15/2021 8:52 AM
12	It makes everyone unhealthy and not be active.	3/12/2021 12:51 PM
13	My father has been smoking cigarettes since high school so he probably couldn't run from one side of the room to the other. My friends vape occasionally mainly 'cause they like how it looks, but we are all aware of the negative effects.	3/11/2021 12:52 PM
14	My parents both have done it for years and I can feel it affect me. I get headaches and so do my sibilings when they smoke around us which is quite often	3/11/2021 12:42 PM
15	I dont hang out with people who vape or smoke	3/10/2021 12:19 PM

Q21 What solutions do you recommend to address youth access and usage of tobacco/vaping products in Loveland?

Answered: 17 Skipped: 5

#	RESPONSES	DATE
1	If flavors were ban then less students would be tempted to begin gaping because flavored products would not be so easily accessible to them. People who are addicted are also drawn in by flavors and it makes it harder to quit vaping.	3/25/2021 12:56 PM
2	Don't make it easy. Option A.	3/24/2021 10:27 AM
3	I strongly agree with all of the above ideas and regulations	3/23/2021 4:28 PM
4	Either completely ban them or use age restricted stores. It would be neat to see how the community reacts to the ban of tobacco/caping products, since it might be a step forward for the rest of the state or country.	3/22/2021 9:18 PM
5	I would recommend taking away flavors or somehow limiting the appeal on tobacco and vapes along with strengthening the access security. Many friends I know get them from other friends (maybe older?) that have them or can legally buy them so either way they can attain them. If they were both more difficult to access and limited on appeal (flavors, marketing) then us teens would not put in the effort to get it	3/19/2021 9:48 PM
6	said earlir	3/19/2021 7:56 PM
7	I don't know how you would stop it. There are people who are of age selling to younger people	3/19/2021 7:00 PM
8	A flavor ban is absolutely essential to limit youth use, as this is a primary reason for a lot of youth use. Because of the flavors, these kind of products are seen as appealing and less harmful and therefore more enticing to youth. Furthermoe, I believe increasing the regulations around retail licensing will aid in ensuring that only 21+ individuals have access to these products.	3/19/2021 5:07 PM
9	Parent oversight	3/18/2021 12:58 PM
10	You guys need to stop being a parent that would be the solution focus more on city infrastructure and brining are community out of your stupid covid 19 regulations	3/18/2021 12:40 PM
11	There is no solution. People have free will and will do what they want. You ban it here they will get it somewhere else.	3/18/2021 12:19 PM
12	Make it harder to get	3/15/2021 8:52 AM
13	I honestly don't know	3/12/2021 12:51 PM
14	Restricting tobacco products to 21+ stores might do something, but youth get them from adults or online anyway	3/11/2021 12:52 PM
15	Idek	3/11/2021 12:42 PM
16	I started smoking when I was 14 with a friend who was 16. To be cool. I'm not sure what we need to do with kids or how to make something healthy just as cool...And once you start...	3/10/2021 2:26 PM
17	Have people come and talk to kids about what has happened to them	3/10/2021 12:19 PM

Q22 Please share additional feedback or concerns.

Answered: 10 Skipped: 12

#	RESPONSES	DATE
1	What would the punishments be for youth being caught with tobacco/vaping products? How will you crack down on family or friends supplying the products? How will these bans affect businesses?	3/22/2021 9:18 PM
2	Many of them also think it is an acceptable way of coping, sometimes even encouraged by adults or parents in their lives. Some of my friends claim their therapist says it's alright if it helps them, but it's mostly from subtle peer pressure. People I talk to say there is no tobacco in the flavored ones, so I'm not sure if they need the education or if they're just disregarding it.	3/19/2021 9:48 PM
3	no	3/19/2021 7:56 PM
4	None	3/19/2021 7:00 PM
5	This idea is insane	3/18/2021 12:58 PM
6	Just stop you have no right to tell a buisness what they can and can't sell. We need less government intervention in are everyday life's. Stop being hypocrites and focus on your life and your families stop focusing on others.	3/18/2021 12:40 PM
7	I think the education about it in school is good. They really need to make all drugs harder to get. I am really worried about the number of kids in middle school that come to school high now that marijuana is legal and easy to get. Kids use because it's easy to get.	3/15/2021 8:52 AM
8	Everyone my age vapes, it's normal now.	3/12/2021 12:51 PM
9	None	3/11/2021 12:42 PM
10	We do have a lot of parents out there who don't parent. I had amazing parents and still started when I was 14. We somehow have to instill self image in kids I think. It's going to be a hard thing to do for some families.	3/10/2021 2:26 PM
