Sections	Notes
1 - 100	<p>I reviewed 100 petition sections. Each section contained the petition with a warning at the top of each page, a general statement for recall, estimated election costs, an incumbent statement, 60 signature lines, and an affidavit for the petition circulator.</p> <p>According to CRS 31-4-503(2)(d) any disassembly of the petition which has the effect of separating the affidavits from the signatures shall render the petition invalid and of no force and effect. The circulator affidavit must be signed in front of a notary public and dated accordingly. No signatures that appear on the petition after the date shown on the affidavit will be accepted.</p>

Additional petition sections may be approved at a later date and will be listed below at the time of approval. The approval of additional sections, if any, does not alter or extend the time period for the circulation and filing of the petition.
